

ARTISTIC DECOR CONCRETE STAINS ARE A LINE OF INORGANIC, ACID BASED STAINS THAT REACT WITH THE CONCRETE AS THEY PENETRATE DEEP INTO THE SURFACE TO PRODUCE RICH, VIBRANT COLORS RESEMBLING NATURE'S MINERAL COLORS AND HUES WITH THE PERMANENCE OF NATURE'S MINERALS.

ENVIRONMENTAL IMPACT:

Artistic Decor Stains contain no arsenic, lead, or mercury and no volatile organic solvents.

APPLICATIONS:

The **Artistic Decor Stains** are applied to any clean, cured concrete surface or concrete overlay surface and allowed to react and dry. Once washed and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty.

BENEFITS:

- **UV stable:** Once dry and sealed, the **Artistic Decor Stains** remain stable and resistant to weather and sun light for years.
- **A wide range of colors:** The **Artistic Decor Stains** at various dilutions and combinations can offer a multitude of colors and shades for any desired effect in beautifying plain concrete surfaces.
- **Ease of application:** The **Artistic Decor Stains** do not require any neutralizing or labor intensive scrubbing. Once dry they can simply be rinsed thoroughly and when dry, apply the sealer. A third of the labor is eliminated.
- **Economical:** The colors cover up to 200 Ft² and many can be diluted to provide even more economical coverage .
- **Long shelf life:** The **Artistic Decor Stains** can be stored in the original bottle for up to one year with no loss of activity.

HOW TO USE:

- **1.** Clean the concrete surface to make sure it is free of any topical coatings, oil, grease or dirt stains.
- **2.** Apply the stain with an acid brush, sponge, or plastic sprayer in the color and technique of your choice.
- **3.** Allow floor to dry thoroughly. Drying time will vary according to the surface conditions and humidity. Next wash or damp wipe any remaining residue.
- **4.** Allow the stained floor to dry again and apply an **ClearCover** to enrich the color and protect the surface.

PROPERTIES:

Type: Reactive acid based concrete stains
Colors: Various
Odor: Slight pungent
Toxicity: Harmful if swallowed
VOC's: None
Flammability: Non-flammable
Composition: Various metallic entities in an aqueous acidic base
